Tissue Paper Flowers

Create a beautiful flower out of tissue paper:

- For this craft you will need: six pieces of tissue paper cut into rectangles of equal size, a pipe cleaner or stapler.

- Lay your tissue paper out flat lengthwise, then accordion fold your paper until it resembles the first picture.

- Loop your pipe cleaner around the center of your paper and twist it together to form a stem. If you don’t have a pipe cleaner, you can staple the center of the flower three times.

- Using scissors, round off the edges of your tissue paper.

- Fan out your tissue paper around the pipe cleaner. Starting with the top layer separate and pull up on each layer. Fluff out your layers to even out both sides.
